Planning Review Comments – Development Permit

Application Number: DP2013-2865
Application Description: New: Single Detached Dwelling
Land Use District: M-CG (Multi-Residential – Contextual Grade-Oriented District)
Site Address: 33 30 Avenue SW
Community: Erlton
Applicant: New Century Design (Shawn Jensen)

August 15, 2013

Erlton Community Association
Planning Representative

Dear Sir / Madam,

The following comprises the Planning Policy Review for the above stated Development Permit application. If you have questions please call me at 403.268.8858 or send an email to Ian.Bamford@calgary.ca.

Yours truly,

Ian Bamford
Planner, Planning Implementation
Development and Building Approvals

General Comments

The proposed development consists of “New: Single Detached Dwelling: Accessory Residential Building (garage)”. According to the Land Use Bylaw (1P2007), the site is designated M-CG (Multi Residential-Contextual Grade-oriented). The proposed development is discretionary within M-CG districts.

Comments on Relevant City Policies

Erlton Area Redevelopment Plan

According to this policy document, the site is designated “Low Density Residential”.

The Low Density Residential Housing Guidelines for Established Communities (Infill Guidelines)

Building Setback from Front Property Line

“The setbacks of new development should respect the established street pattern”.

Building setback from the front property line refers to the distance from the front property line of the parcel to the nearest part of the building. The front of the proposed dwelling is in line with the existing dwellings to the east and west.

Building Setback from Side Property Line

“One side setback should be kept clear in order to provide unobstructed exterior access from the front to the rear of the house”.

The Land use bylaw (1P2007) requires a minimum setback from the side property line of 1.2 metres. The proposed development meets this requirement. Equally, the side yard provides an unobstructed side yard on the east side of the structure. It should be noted that the General rules for Multi-Residential Districts allows a landing to project into any setback area providing the area of the landing does not exceed 2.5 square metres. The approximate area of the landing is 1.64 square metres.

Building Setback from Rear Property Line

“The rear setback area, in addition to being the garage and/or other accessory building location, is an important amenity space that should allow for outdoor activity and maintain the pattern of rear space typical of the surrounding community”.

The proposed development meets the requirements of this policy.

Parcel Coverage

The Land Use Bylaw (1P2007) allows for a maximum site coverage of 45%. The proposed dwelling and garage have a site coverage of 37.5%.

Parking

“Two on-site parking spaces should be provided for each new dwelling unit”

The proposed single family dwelling provides two parking spaces within a detached garage. The detached garage is accessed from the lane.

Building Height

The Land Use Bylaw (1P2007) allows for a maximum building height of 12 metres within M-CG districts. The proposed dwelling has a height of 8.07 metres.

Entry Treatment / Entrances

“The principal entry should be clearly identifiable from the street and located in a manner which respects the privacy of the neighbours”.

A development should have its principal entry clearly identifiable from the street. Such an entrance provides a street friendly appearance and safety. The proposed development has a front entrance that is clearly identifiable from the street.
