## **Stanley Park Redevelopment Initiative**

Stanley Park has become increasingly popular in recent years, resulting in greater demands placed on the park. The City of Calgary Parks is working towards a redevelopment plan for the park. In the spring and summer of 2013, public input about the future of Stanley Park and feedback about draft design concepts were gathered. We are currently in the third and final phase of this project, the presentation of the final proposed Stanley Park Redevelopment Plan. We invite you to review the material and provide your feedback at the Open House or on The City's website.

Visit [www.calgary.ca/parks](http://www.calgary.ca/parks) and click on the Stanley Park link under Parks Highlights.
