Presidents Report: Natalya Nicolson

Traffic assessment was done in the spring. However, the results are not in and we are hopeful to have them soon. Some of the results will include the issues with Erlton Street, Erlton Road and 25 Ave. The Stampede parking was a great success. Working with Community Stronger Together - Ward 9 communities. This deals with common issues communities have. More communities are wanting to join. A lot of work is occurring outside the community, such as: working with our current MLA and meetings with other communities and their presidents. Flood mitigation meetings with Joan Crockett before the election to ensure we are kept in the loop. Will be making contact with the new representative.

Membership: Bonnie Fischer

To date, we have 165 members. 147 paid memberships and 18 senior memberships. 41 members have not been contacted. Membership is ongoing with the major membership drive in the fall

Planning: Bill Fischer

To date there have been two development permits. We put forward two appeals, winning one. The only active permit is the Anthem property and they are waiting on the city. Anthem is moving their construction site office from Eau Claire to the property along 24 Ave. We have asked for site plans.

Traffic:

Awaiting on city regarding traffic report. Mac Logan is to contact us to report on the traffic report. Results are overdue. Patrick has been looking into the possibility of a sound retention wall along McLeod Trail. Parks and Rec. issues are still outstanding. Need someone willing to chair - all volunteers are lined up. Talisman Center is undergoing changes and is requesting feedback from all stakeholders.

Post Flood:

Our role has been in support and direction. The new government is looking at the process from the past. There is a research group looking for volunteers that were flooded to be interviewed. These individuals are not limited to our community but to anyone flooded.
